By the Wayne County Planning Department.

By Pete Wearstler Pete Wearstler

SURVEYED FOR: ELVIN MAST

SCALE: 1"=200'

- 5/8" REBAR FOUND UNLESS OTHERWISE NOTED
- 5/8" REBAR SET WITH I.D. CAP I.D. CAP MARKED "BAKER 6938"

A drainage course was observed on the proposed 4.522 acre parcel. The drainage course is a swale, as shown and identified on the survey drawing. The drainage course should be preserved as a means of disposing stormwater and groundwater and is intended to benefit all who adjoin it. To preserve the function of the drainage course an area described as, ten feet on each side of the centerline of the swale, extending along its entire length, should not be impeded. Within the drainage course, no structure, fencing, culvert or other material should be placed or permitted to remain which may obstruct, retard or divert the flow.
